## MADE MILLION IN ONE MORNING

J. B. Walker Conceals Himself in Lakewood, N. J., While He Gobbles the Fruit.

#### HIS BROKERS RAIDED MARKET

NEW YORK, March 14.—Making a millon isn't such a rare occurrence to J. Brandt Walker, who comes from Chicago, as it is to some people. The novelty has worn off for him, Yesterday he made a million, but never before in quite the same way. He gathered it in a thousand miles from home, in a little corner room at the Lakewood Hotel, Lakewood, N. J., with much the same spirit as a boy cats a fine rec apple.

The particular apple that Mr. Walker, of Chicago, ate yesterday has been ripening for many weeks, even months, He noticed it when the petals began to drop off, and when the bond market was declining steadily at the time that stocks were advancing. Such a happening was particularly favorable, thought he, to the growth of this particular apple, It arrived at a rosy green stage when the railroads began putting on new securities and increasing dividends at the same time. It began to grow pink, yellow and luscious when Union Pacific began to sell at nincty. About the same time some railroads were paying ten per cent, dividends, while the standard railroads of this country pay only about seven per cent.

orders were cowing from. The market strengthened and stopped falling. It began to steady all along the line to-ward nearling.

began to steady all along the line toward evening.

When Mr. Walker went down to dinner last night—his first dinner in the public dining-room in many days—ne had accomplished the task of scooping in this million. When asked about his coup, he refused to say much. To friends he said that half of the "soph" was Steel, on which he made a pront of half a million. He sold 50,000-around 50, and bought in at 38 and 29. Then he explained how he began to sell six months ago, because of the queer financial tactics of the railroats.

Decline is Not Over Yet.

Yesterday he made a million, but never bestock in the context of the Chicago, but sold out to his brother, who is a member of the New York Stock Exchange.

Witness said he had long desired to write a history of Virginia, but his public duties had prossed him so hard that he had been unable to do so. He hoped some day he would be able to do this work.

Witness testified as to the purchase of books from Putnam for the school traveling ilbraries, and the gist of this testimeny was that he had followed the list made out by Mr. Eggieston, Superintendent of Public Instruction, and acted in the whole matter under the direction of the beard.

One man had sent a check for \$3 for work, and it had been returned. The man sent it again and witness turned it over to the Secretary of the Commonwealth to go into the Library fund.
